Design of Concrete Structures

David Darwin, Charles Dolan, Arthur Nilson

Design of Concrete Structures David Darwin, Charles Dolan, Arthur Nilson

The fifteenth edition of the classic text, Design of Concrete Structures, is completely revised using the newly released 2014 American Concrete Institute (ACI) Building Code. This new edition has the same dual objectives as the previous editions: first to establish a firm understanding of the behavior of structural concrete, then to develop proficiency in the methods used in current design practice.

Chapters on yield line and strip methods for slabs are moved to the text website.
