This book is plagiarism of Plato's works "Timaeus" and "Critias," and Manly Hall's and Helena Blavatsky's philosophical works about Timaeus and Critias, which is about lost continent Atlantis. Manly Hall and Helena Blavatsky, like Jesus and Apostle Paul, were initiates in ancient mysteries – they were Pythagoreans and Platonists. Blavatsky says: "Plato's work Timaeus is so confused that no one but an initiate can understand its secret meaning, deliberately filled with passages directly contradicting each other to conceal its true meaning" (Isis Unveiled v2, p.37.) Manly Hall explains that by the second half of 16th century the English Monarchy had found out the hidden secrets in Plato's work Timaeus about sunken continent Atlantis in Pacific Ocean. Queen Elizabeth I put resources together by joining other European monarchies which made the Holy Roman Empire (Spain, Portugal, Denmark, Germany, Netherlands, Austria, and Hungary,) and invaded India's east coast, reach China, occupy Hong Kong Island, establish permanent bases there, and investigate Pacific Ocean and North American coast from West side (from California side); otherwise Manly Hall explains if Queen Elizabeth's plan was to reach North America, it would have been a lot easier for her to reach North America from East Coast side across from Atlantic Ocean, considering the fact that Christopher Columbus had discovered America some 90 years earlier in 1492. Hall says the topic of lost continent Atlantis was a hot topic in Ancient world during Hellenistic (Pythagoras's, Platonists', Alexander's) and Roman eras. Hall says in 4th century AD when the Hun-Turkic barbarian tribes (Atilla's predecessors) started invading Western Roman Empire and the giant Roman "ship" was sinking, Constantine and Theodosius imposed Christianity, destroyed all the gathered evidence about Atlantis, and took all their secrets with them to their graveyards (unless Constantine buried empire's most secretive documents under Hagia Sophia for future Byzantine emperors' use). Hall says despite all Theodosius's destruction of old manuscripts and burning of libraries, here and there bits and pieces later surfaced, such as the "Piri Reis map". This book explains Manly Hall's esoteric occult philosophy about lost continent Atlantis, and his opinion about why Queen Elizabeth I and the monarchies of the rest of Holy Roman Empire reached and investigated the American coasts from West Coast side first, and about why the landmass on west side of Pacific Ocean is heavily weathered, eroded, broken into pieces, deformed (SE Asia, Indonesia, the Philippines, China) compared to the landmass on the east side of Pacific Ocean (which would be the West Coast of American continent,) which is solid, pretty much straight line. All these are explained in Manly Hall's books but in esoteric occult difficult language. In Queen Elizabeth I's era there were at least 14 monarchies in Europe; Texe Marrs says all European and world monarchies had common bloodlines; he means they are all blood relatives.
