**Human Behavior in the Social Environment: Theories for Social Work Practice** Bruce A. Thyer, Catherine N. Dulmus, Karen M. Sowers

**An accessible and engaging guide to the study of human behavior in the social environment, covering every major theoretical approach**

Providing an overview of the major human behavioral theories used to guide social work practice with individuals, families, small groups, and organizations, *Human Behavior in the Social Environment* examines a different theoretical approach in each chapter—from its historical and conceptual origins to its relevance to social work and clinical applications.

Each chapter draws on a theoretical approach to foster understanding of normative individual human development and the etiology of dysfunctional behavior, as well as to provide guidance in the application of social work intervention.

Edited by a team of scholars, *Human Behavior in the Social Environment* addresses the Council on Social Work Education's required competencies for accreditation (EPAS) and explores:

- Respondent Learning theory
- Operant Learning theory
- Cognitive-Behavioral theory
- Attachment theory
- Psychosocial theory
- Person-Centered theory
- Genetic theory
- Ecosystems theory
- Small Group theory
- Family Systems theory
- Organizational theory
