Caught in the Crossfire

A human colony settles on a distant planet, a colony formed by Jake Holman-- a man trying to escape a dark past. But as this diverse group of thousands comes to terms with their new lives on a new world, they make a startling discovery: primitive humanoid aliens. There are only a few isolated villages, and the evidence seems to indicate they aren't native to the planet--despite the aliens living in thatched huts and possessing only primitive tools.

*"Life-sized characters with personal and cosmic preoccupations, tense and knotty plotting, and Kress's usual abundance of ideas: gripping, challenging work, a reassuring return to top form."--Kirkus Reviews starred review

"Kress operates up to her usual high standards, and she also makes ethical dilemmas as gripping as laser fights and the results of human-alien conflict rather than depend on which human contacts which alien. Choice stuff."--Booklist

"A satisfying thought experiment in science and philosophy. . . . Fans of serious SF will enjoy this tale of bravery, travel, adventure, and personal and social crisis."--Publishers Weekly

"Kress's aliens are convincing, and her colonists are all fascinating, developed individuals. This thought-provoking book is highly recommended . . ."--VOYA

"In this latest thrilling offering by Kress, world-building and character development are flawlessly executed in a thought-provoking conjunction of passivity and morality."-Romantic Times Book Club
