Esoteric Magic and the Cabala (Weiser News) Phillip Cooper

Magic harnesses the vast potential of the subconscious mind. The only realistic magical path is one of individual effort that leads to truth.

The study of magic is divided into two distinct disciplines: practical and esoteric. Practical magic uses the power of the mind to attain physical results such as more money, a bigger house, better health. Esoteric magic, the subject of Phillip Cooper's new book, focuses on the quest for greater understanding and mental discipline. Its aims are the discovery of inner truths and the understanding of the workings of creation.

In his typical no-nonsense manner, Cooper conveys the principles of esoteric magic and offers a positive, realistic means of studying and understanding magic on a deeply personal level. Esoteric Magic and the Cabala helps readers train their minds, their emotions, and their imaginations to more fully understand reality.

Esoteric Magic and the Cabala is both positive and realistic. It helps readers learn to use the Tree of Life as a means of classifying knowledge, of observing an interrelated whole, a method that provides the tools for endless self-discovery. It offers a complete, workable plan of study that novices will find easy to understand and advanced practitioners will find refreshing and stimulating after the usual confusing and dogmatic magic texts.
