## **Decoding the Ethics Code: A Practical Guide for Psychologists** Celia B. Fisher

How has the 2002 American Psychological Association's (APA) Ethical Principles of Psychologists and Code of Conduct been applied to ethical decision-making in the science and practice of psychology since its adoption? What challenges and insights has it presented over the past six years? In this **Second Edition** of **Decoding the Ethics Code**, Celia B. Fisher, Ph.D. – who chaired the APA Ethics Code Task Force – addresses these important issues using the same user-friendly format and in-depth coverage of the *First Edition*.

### **Key Features of the Second Edition:**

- Incorporates scholarly reactions to the Ethics Code and sheds new light on application since its adoption in 2002
- Highlights updated case examples and expands discussion of the ethical decision-making model introduced in the *First Edition*
- Introduces "hot topic" sections at the end of chapters to demonstrate the applicability of the Code in the face of emerging moral debates – such as the involvement in psychologists in military interrogations and the integration of religion and spirituality in therapy
- Includes an alternate "Table of Contents" organized so readers and instructors can quickly find how standards throughout the Ethics Code relate to specific concerns and settings

### **Intended Audience**

This insider's guide is an essential resource for new and established mental health practitioners. Graduate students of psychology will find this core text a valuable source of information on ethics in psychology.
