# Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth Edition, Volume 2: Design and Analysis of Large Mirrors and Structures

**Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth Edition, Volume 2: Design and Analysis of Large Mirrors and Structures**

**Opto-Mechanical Systems Design, Fourth Edition** is different in many ways from its three earlier editions: coauthor Daniel Vukobratovich has brought his broad expertise in materials, opto-mechanical design, analysis of optical instruments, large mirrors, and structures to bear throughout the book; Jan Nijenhuis has contributed a comprehensive new chapter on kinematics and applications of flexures; and several other experts in special aspects of opto-mechanics have contributed portions of other chapters. An expanded feature—a total of 110 worked-out design examples—has been added to several chapters to show how the theory, equations, and analytical methods can be applied by the reader. Finally, the extended text, new illustrations, new tables of data, and new references have warranted publication of this work in the form of two separate but closely entwined volumes.

This second volume, **Design and Analysis of Large Mirrors and Structures**, concentrates on the design and mounting of significantly larger optics and their structures, including a new and important topic: detailed consideration of factors affecting large mirror performance. The book details how to design and fabricate very large single-substrate, segmented, and lightweight mirrors; describes mountings for large mirrors with their optical axes in vertical, horizontal, and variable orientations; indicates how metal and composite mirrors differ from ones made of glass; explains key design aspects of optical instrument structural design; and takes a look at an emerging technology—the evolution and applications of silicon and silicon carbide in mirrors and other types of components for optical applications.

### **From reader reviews:**

#### **Kenisha Perkins:**

This book untitled Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth Edition, Volume 2: Design and Analysis of Large Mirrors and Structures to be one of several books which best seller in this year, here is because when you read this book you can get a lot of benefit in it. You will easily to buy this kind of book in the book retailer or you can order it by means of online. The publisher on this book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Smart phone. So there is no reason to you personally to past this reserve from your list.

#### **Lori Parker:**

The publication with title Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth Edition, Volume 2: Design and Analysis of Large Mirrors and Structures has lot of information that you can learn it. You can get a lot of advantage after read this book. This book exist new understanding the information that exist in this publication represented the condition of the world currently. That is important to yo7u to find out how the improvement of the world. This book will bring you in new era of the syndication. You can read the e-book in your smart phone, so you can read this anywhere you want.

#### **Eric Bittinger:**

Are you kind of hectic person, only have 10 or 15 minute in your day time to upgrading your mind skill or thinking skill actually analytical thinking? Then you have problem with the book in comparison with can satisfy your short period of time to read it because this time you only find publication that need more time to be read. Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth Edition, Volume 2: Design and Analysis of Large Mirrors and Structures can be your answer given it can be read by you actually who have those short time problems.

#### **Tommy Wright:**

Publication is one of source of expertise. We can add our know-how from it. Not only for students but also native or citizen need book to know the upgrade information of year for you to year. As we know those ebooks have many advantages. Beside we all add our knowledge, also can bring us to around the world. By the book Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth Edition, Volume 2: Design and Analysis of Large Mirrors and Structures we can take more advantage. Don't someone to be creative people? For being creative person must love to read a book. Only choose the best book that appropriate with your aim. Don't be doubt to change your life with that book Opto-Mechanical Systems Design, Fourth Edition, Two Volume Set: Opto-Mechanical Systems Design, Fourth

Edition, Volume 2: Design and Analysis of Large Mirrors and Structures. You can more desirable than now.
