Kevin Kearney-Audio Artist, Sound Designer, Location Sound Recordist follows the growth of television, television commercial production and filmmaking in Australia. The extremely small population of Australia up to the seventies allowed a major crossover in the arts between poets, musicians, writers, experimental filmmakers and entrepreneurs which in turn influenced the work of audio artists, like Kearney, in both their commercial and personal film work. Moreover because there is a paucity of information and very few books available on such people as audio artists, sound designers and location sound recordists, this book and the following volume will be invaluable to those interested in analogue sound on film production period.
