Como se cuenta un cuento (Spanish Edition) Gabriel García Márquez

On this personal work, García Márquez reveals some of the main keys in the creation of a text, as well as some elements of the complex process of the making of a story, of a fiction settled in words, and, at the same time, he shares some angles of his own creative work. In the words of the author himself: "What matters most in this world to me is the creative process. What kind of mystery is such so that the simple desire of telling stories become a passion, so that a human being is willing to die for it; to starve, to freeze, anything, in order to be able to do one thing that cannot be seen nor touch and that, if you think of it, is good for nothing?"
