An Introduction to Modern Stellar Astrophysics

Dale A. Ostlie, Bradley W. Carroll

An Introduction to Modern Stellar Astrophysics Dale A. Ostlie, Bradley W. Carroll

This exciting text opens the entire field of modern astrophysics to the reader by using only the basic tools of physics. Designed for the junior- level astrophysics course, each topic is approached in the context of the major unresolved questions in astrophysics. The core chapters have been designed for a course in stellar structure and evolution, while the extended chapters provide additional coverage of the solar system, galactic structure, dynamics, evolution, and cosmology.
