**The Way of the Ship: America's Maritime History Reenvisioned, 1600-2000** Alex Roland

The history of shipping in America, as traditionally recounted, is based primarily on the fortunes of the American merchant marine. This book offers a global perspective and considers oceanic shipping *and* domestic shipping along America's coasts and inland waterways, with explanations of the forces that influenced the way of the ship. The result is an eye-opening look at American maritime history and the ways it helped shaped the nation's history. It features beautiful color images of paintings by today's premier marine artist, John Stobart.
