Many well-intentioned people these days look to the realm of politics for the solutions to the many and diverse societal problems facing the world. They believe that if only they could get good people into seats of power, then all would begin to correct itself and heal. These are noble and sane beliefs; indeed, one would expect the political route to bring this hoped-for outcome. That's what politics are for, after all, right? We have come to believe that government does the will of the people, that the vote of the individual is the ultimate shaper of policy. The reality, however, is quite different, and this is borne out factually and undeniably in Ted Flynn's new book, *Hope of the Wicked*.

Politics has become but a tool for chaos; the solution for the ills confronting us exists far beyond. How have we arrived at the point we find ourselves, a point defined by the lack of ability to even govern our own future? If we can no longer determine our temporal destiny, then what does? The answers lie in a vast tangle of forces, organizations, individuals and philosophies, a tangle purposely confusing so as to avoid detection, a mass bound together tangibly by the desire of money and power, intangibly by the very essence of deceit.

What are these forces? How do they function? How have they come to the height of power? The truth is not easy to explain, nor is it easy to accept. The deception underlying the plans and processes is extremely subtle and pervasive. To understand all that is afoot requires delving into a large number of areas. *Hope of the Wicked* does just this. It explores the convergence on a global basis of multi-national corporations, foundations, and the political and sociological instruments of a one-world government to bring a New World Order. The book is 550 pages with 82 photographs and 1,200 footnotes, with a strong historical basis to show that there is a global elite working to end the sovereignty of nations, to place all under the United Nations. Areas explored are: the plan to bring America into the New World Order, the altered roles and make-up of the family, how a global elite is working to change the form of money, the abuse of technology, the Shadow Government, Executive Orders, the role of the Federal Reserve and who owns it, the Bilderbergers, the Council on Foreign Relations, the Trilateral Commission, identities of the global big wigs and wonks, how the agenda has no ideology and is neither Democrat nor Republican but about control, the erosion of freedoms and rights, the planned collapse of the world economy to bring a new order from chaos, the intentional dumbing-down of American education, and many other issues that are bothering you in your gut, but that you can't put your finger on.

Hope of the Wicked is about the greatest deception in modern history. The book is packed with hundreds and hundreds of quotes from world leaders themselves showing where they want to bring the world. Nothing is left to guesswork; when you are finished reading, you will understand that what seems to be inconsistent and illogical to you, is not to the global elite who wish to bring the United States under the auspices of the United Nations. The quotes are from established world leaders, past and present, and most are household names. It is laid out for all to see what they have organized out in the open for all to observe, if one wants to learn what the Masters of the Universe are planning for the New World Order. The book is neither left- nor right-wing politically, but is the view of a scribe observing these trends and issues over a twenty-five year period. It is primarily a resource guide and mini-anthology, with an index and 38 pages of footnotes that will be most difficult for someone to take issue with, principally because the quotes are from the perpetrators themselves what they have accomplished, and where they hope to go in the future. When you are done reading the material presented in this book, you'll never look at the news the same way again. It all amounts to control, control of your money, your work, your family, your education, your attitudes, your beliefs, your

thoughts. Do you think its impossible? Read *Hope of the Wicked* and you will know for sure it is not only possible, it is already being done.
