Resurrecting the African Spiritual Mind (Resurrecting and Reculturalizing the African Spiritual Mind) (Volume 1) Michael Moss Ph.D.

This book is a critical analysis of the African American religious spiritual system from an African centered perspective. Critical analysis must begin from a frame of reference, or a context. This analysis will be centered and contextualized from an African worldview frame of reference. Only an African centered worldview, will allow African people to understand themselves and Europeans, without the effects of contamination and brainwashing, which results from the European mis-education process inflicted upon African people. We must step out of the European worldview box in which we have been mis-educated to accurately critically analyze ourselves and Europeans or white people.
